

Instant Connectivity (Business Networking App)

 United States of America

Instantly connect and identify people of interest at your spot location. Ideal for networking and enhancing business.

Features

- » iC is the best tool to look to connect on site without having to share any relevant information.
- » No need to relate to social networks and just work within the physical area you are in.
- » Spot people of mutual interest and connect instantly in the place you are present!
- » Meet and connect with people only at the place and time you are in. Immediate personal contact after.
