

Visilean (Construction Management)

 United States of America

VisiLean is an innovative cloud based construction management service. Based on Lean principles, VisiLean offers a highly intuitive way to manage your construction projects.

Features

The VisiLean app enables field based access to the construction tasks, including

- » Task status management
- » Snagging (or issue list)
- » Access to drawings and specifications
- » Communication and photo upload
- » Report Generation
- » Task Card Execution
